

# DERWENT

## Watercolour Wallet

Getting outdoors to sketch and paint can be great fun and inspirational but you don't want to carry a lot of unnecessary equipment with you so Derwent has come to the rescue with their new Watercolour wallet.

The new outdoor pencil set comes in a compact and stylish leather-look wallet containing a focused range of water-soluble pencils and accessories ideal for taking on your travels. Small and neat it fits easily into a bag and contains everything you need; a Derwent Watersoluble Sketching Pencil for initial drawings and dramatic line and wash sketches, 11 Derwent Watercolour Pencils in shades perfect for capturing bold vibrant landscapes or creating delicate watercolour washes plus an eraser, a metal sharpener, a paintbrush and finally an A5 pad containing 8 sheets of 240gsm acid free watercolour paper.

The pencils and accessories are all held in place by individual elastic bands and the wallet is fastened securely shut with Velcro while travelling. There is no need to hunt in the bottom of your bag for loose pencils!
