

# system3 Acrylic...

## Lay it on thick. Spread it on thin.

System 3 Heavy Body. System 3 Original. These two sources of creative inspiration of Artists worldwide are now available to Australian Artists.

System 3 Original and Heavy Body acrylics are highly versatile, water-based acrylic colours. They offer an excellent painting experience at an economical price.

Only high quality pigments are used in the manufacture of the System 3 acrylic ranges, offering significantly greater loading than in other acrylic ranges in this class.

System 3's comprehensive range of colours offers excellent light-fastness, permanence, durability and covering power.

All colours can be thinned with water to pale washes or used directly from the pot or tube; each form dries quickly to create an insoluble film. The quick drying properties of the range enable the artist to work quickly, superimposing or juxtaposing colours without unnecessary fuss. All System 3 Original and Heavy Body colours are fully intermixable and suitable for interior use. Whether you are painting, screen printing, or laying down texture, there is no better complimentary acrylic range in the world.

To download a free colour chart or broadsheet please go to - [www.creativityunlimited.com.au](http://www.creativityunlimited.com.au)

*If you would like to try the new System 3 acrylics please fill out the coupon below to receive a free 10ml sample of both System 3 Original and System 3 Heavy Body plus comprehensive broadsheet.*
