

IDEA VARIEGATED TAMISE LEAF and IMITATION LEAF

Ultra-thin flakes of pure metal in assorted tones which will adhere to fabric. Available in 4 tone combinations spring, sunshine, red and mix. Sheets are available in blue, red and bronze
Use with Idea Water-based Decoupage Fabric glue.

How to

Using a flat bristle brush spread the Idea Water-based Decoupage Fabric glue onto the fabric.

Sprinkle on the tamise leaf and press down with thumb until adhered to the fabric .

When dry, brush off excess with a bristle brush.

Place a piece of paper over leaf and iron with dry iron on cotton setting.

When using the sheets of leaf you can iron the sheet directly over the area covered with glue by placing the sheet onto the glue and placing a piece of paper between the leaf and iron. Using a dry iron on cotton setting, press over.

You may also tear pieces of the leaf and press onto the glued fabric and iron to finish.

Always protect your iron by covering leaf with paper.

Light hand wash in cold water, only if necessary.

Recommended not for washing. Can be stitched over.
