

Tie Dyeing Made Easy

No more classroom chaos and mess while tie dying, and it's so easy, using the Jacquard Tie Dye Kit .

Materials: Tie Dye Kit
Natural fabric or garments
Press Seal bags
Rubber bands
Bucket or tub for pre treating fabric.

Method: Saturate fabric with tap water , wring dry.
Fold, pleat or twist fabric to create different effects. (Instructions on folding included in kit)
Dissolve soda ash in hot tap water ½ cup ash for 2 litres of water.
Immerse the tied fabric in solution and soak for at least 20min.
While fabric soaks, mix the dye in the 3 plastic bottles supplied containing Procion Mx dye powder. Fill to water line mark with warm tap water shake well.
Remove fabric from soda ash solution wringing out excess liquid. DO NOT RINSE.
Squirt dye onto surface of bound areas of fabric, then gently pull fabric apart and squirt dye into folds, squeezing dyed areas to saturate.
Place dyed fabric into a press seal plastic bag and leave for 24 hours.
Remove fabric from bag and rinse under warm running tap water and remove rubber bands
Wash fabric immediately with liquid soap and hang to dry or dry in clothes dryer.
