## Lenox Drawing Paper

This 250gsm machine made paper was created to have its own unique characteristics which has made it so suitable for a variety of media. It does not have a deckled edge nor is it watermarked, however its off-white shade, medium textured surface and supple feel make it an excellent substitute for traditional vellum paper. Vellum surfaces are great for graphite, coloured pencil, charcoal, pastel, and crayon. The vellum surface has peaks and valleys which grab dry media such as graphite. More even shading and deeper tones can be achieved on a vellum surface. Lenox Drawing Paper is very dimensionally stable making it an excellent paper for silkscreen. Its medium textured vellum surface makes it ideal for all drawing techniques: graphite, pastel and charcoal. Specifications: Made in the USA, 100% Cotton, Neutral pH, Acid Free, Subtle texture, 250gsm

*Errera Channel, Antarctica  
soft pastel*

**Sheets - Minimum purchase 5 sheets.**

## Stonehenge Drawing Paper

A traditional fine art and drawing paper with a flawless vellum surface. Originally created for printmaking Stonehenge paper has become known as one of the finest papers available for pencil, watercolour, gouache, acrylic, pastel and charcoal work. This paper is made from 100% cotton and is acid-free and is buffered with calcium carbonate to help protect artwork from contaminated environments. Available in standard and large sheet sizes, rolls and pads.

### Sheets – 250gsm - Minimum purchase 5 sheets per size and colour.

**CR** Cream **BL** Pale Blue **FA** Fawn **PG** Pearl Grey **NA** Natural **PW** Polar White

11x14" (279x356mm) Pad of 15 **STP1114AS**

### Stonehenge 135gsm Lightweight

Machine-made in the USA, Stonehenge Lightweight is a 135gsm, 100% cotton paper with the same outstanding quality characteristics as the heavier-weight, 250gsm Stonehenge multi-media paper. It is the optimum sheet for the artisan that specializes in fine drawing and prefers a lighter-weight, quality paper versus a heavy-weight cotton paper. Stonehenge Lightweight offers the perfect surface for all fine drawing techniques: colouring and graphite pencil, pastel and charcoal. Available in 9 x 12", 11 x 14" and 14 x 17" sizes. 30 sheets per pad.

9 x 12" (229x305mm)	Pad 30	<b>STL0912WH</b>
11 x 14" (279x356mm)	Pad 30	<b>STL1114WH</b>
14 x 17" (356x432mm)	Pad 30	<b>STL1417WH</b>

### Spiral Bound "Wired" Sketch Journals

A unique addition to the Stonehenge range these generous 32 sheet (64 page), 250gsm white, Stonehenge paper journals feature heavyweight acid-free, boxboard covers that can be personalised with the owners works of art.

6x15" (152x381mm)	Pad of 32	<b>STPS0615W</b>
7x7" (178x178mm)	Pad of 32	<b>STPS0707W</b>
9x12" (229x305mm)	Pad of 32	<b>STPS0912W</b>
11x14" (279x356mm)	Pad of 32	<b>STPS1114W</b>

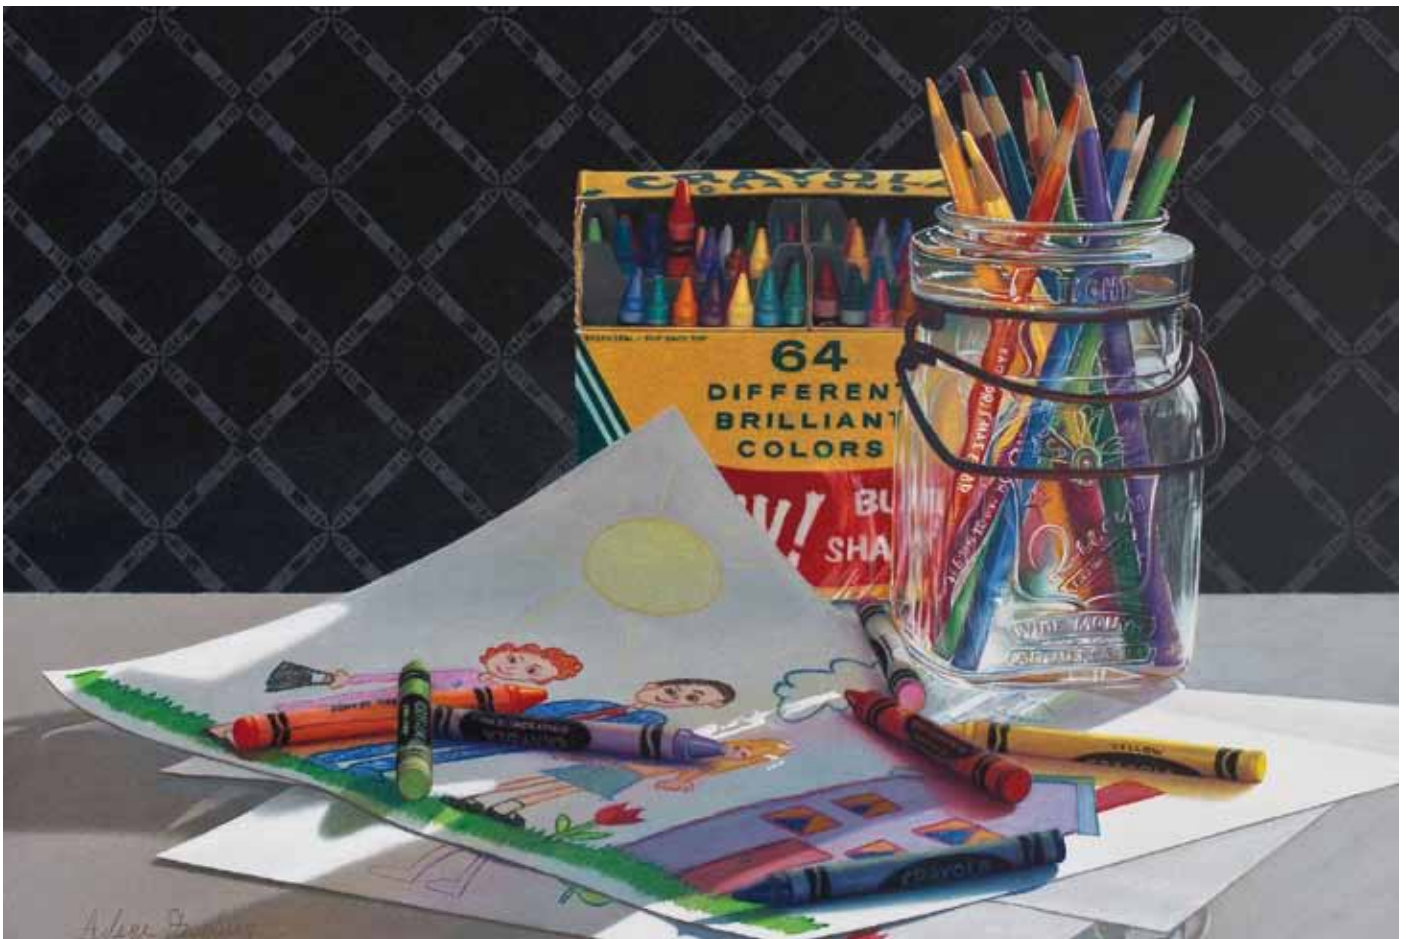

**Stonehenge Papers Sample Book** - Contains one 2x6" (50x150mm) sheet of each of the colours and weights of this versatile, 100% cotton artists' paper designed to suit all artistic needs. Limit one per customer.

# Yupo Ultra Watercolour Paper

Rainbow Feather © SandySandy.com

Yupo Ultra is a unique alternative to traditional art papers. It is a synthetic paper, made of 100% polypropylene and is waterproof, stain resistant, and extremely strong and durable. It features a non-absorbent, ultra-smooth surface that resists tearing and buckling and remains perfectly flat, eliminating the need for soaking, stretching or taping. The non-absorbent surface allows watercolours and acrylics to sit right on top of the paper, providing beautiful, watery affects that are unachievable on any other paper. Pigments applied to the ultra-white sheet retain their true clarity and brilliance making the colours more vibrant and brilliant than standard papers. Yupo synthetic paper can withstand multiple erasures and it can even be run under a tap to erase watercolours. It also holds pen and ink lines with razor sharp precision and markers work beautifully on the unique surface as well. It is also ideal for silkscreen printing, drawing and offset printing. Due the unique qualities of this paper, dirt and oils can hinder its performance so it is recommended that any spots and/or fingerprints be removed with soap and water before use. Yupo ultra-smooth synthetic paper is pH neutral, flawlessly smooth and recyclable.
